In Re: Twin Creek Irrigation Co.

Dear Sir:

I am herewith enclosing you a check for the sum of \$34.45, the balance due your office according to re-assessment of cost of distributing the waters of ~~Twin~~ Twin Creeks and Cedar Creek in Sanpete County, Utah, in the Spring of 1926, for the Twin Creek Irrigation Co., and while the officers claim that this is more than their just proportion, but in view of the difficulty in adjusting the matter, they would rather have it closed.

They think that if the necessity again arises to have the water distributed by your office a different distribution of costs will and should be made.

Yours very truly,

A. H. Christenson
